Job Description: Analytical Chemist

Salary: Competitive

Age: 18 years and above

Company: Advanced Development & Safety Laboratories

Email: mark.bowes-cavanagh@adslaboratories.com

Job Summary:

ADSL is seeking a highly skilled and motivated Analytical Chemist to join our dynamic team in Paignton, England. As an Analytical Chemist, you will play a critical role in the development and quality control of cosmetic products. Your expertise in analytical techniques and attention to detail will contribute to the creation of innovative, safe, and high-quality cosmetic solutions. This role is full time and is based in Paignton, England.

Working Hours:

- Monday to Friday
- 0900 – 1700 (9:00AM – 5:00PM)

Role Responsibilities:

- Analytical Testing: Perform a wide range of analytical tests on cosmetic products, including but not limited to: Chemical composition analysis, Stability testing, pH measurements, Viscosity testing, Microbiological testing, Raw material characterization
- Method Development: Develop and validate analytical methods to ensure accurate and reproducible results for cosmetic product analysis.
- Quality Control: Monitor and maintain the quality standards of cosmetic products, ensuring compliance with regulatory requirements and industry standards.
- Instrumentation: Operate and maintain laboratory equipment, such as HPLC, GC, UV-Vis spectrophotometers, and other analytical instruments.
- Data Analysis: Collect, analyze, and interpret data, and prepare detailed reports summarizing findings and recommendations.
- Compliance: Stay up-to-date with regulatory changes and industry trends related to cosmetic products, ensuring that all testing and documentation are in compliance with relevant regulations.

- Collaboration: Work closely with cross-functional teams, including formulation scientists, regulatory affairs, and quality assurance, to support product development and improvement efforts.
- Safety and Documentation: Follow laboratory safety protocols and maintain accurate records of all experiments, procedures, and results.
- Continuous Improvement: Contribute to process improvements, cost-effective testing strategies, and the development of new analytical techniques.

Qualifications and Skills:

- Bachelor's or Master's degree in Chemistry, Analytical Chemistry, or related field. Proven experience in analytical testing, preferably in the cosmetics or personal care industry.
- Strong knowledge of analytical techniques and instrumentation.
- Familiarity with Good Laboratory Practices (GLP) and Good Manufacturing Practices (GMP).
- Excellent problem-solving skills and attention to detail.
- Effective communication skills, both written and verbal.
- Ability to work independently and as part of a team.
- Familiarity with regulatory requirements for cosmetic products is a plus.

Application:

Interested candidates are encouraged to submit their CV and a cover letter highlighting their relevant experience and qualifications to mark.bowes-cavanagh@adslaboratories.com with the subject line "Analytical Chemist Application - ADSL."

ADSL is an equal opportunity employer, committed to fostering a diverse and inclusive workplace. We encourage individuals of all backgrounds to apply.

Join us at ADSL and contribute to the development of cutting-edge cosmetic products that enhance the lives of our customers while ensuring their safety and quality. Your analytical expertise will be the key to our success in delivering innovative solutions to the cosmetic industry.
