Job Description: Laboratory Technician

Salary: Competitive

Age: 18 years and above

Company: Advanced Development & Safety Laboratories

Email: jake.robinson@adslaboratories.com

Location: Paignton, Devon

Job Summary:

We are seeking a reliable and detail-oriented Laboratory Technician to support the day-to-day operations of our laboratory. This role is integral to ensuring the smooth running of laboratory activities, including preparation of materials, maintaining cleanliness, supporting testing processes, and ensuring compliance with quality and safety standards.

The successful candidate will work closely with the laboratory and development teams, assisting in routine tasks while maintaining high standards of accuracy, organisation, and regulatory compliance. This is a full-time, on-site role based in Paignton, England.

Working Hours:

- Monday to Friday
- 0900 – 1700 (9:00AM – 5:00PM)

Role Responsibilities:

- Preparing laboratory materials, reagents, and microbiological culture media as required.
- Cleaning, sanitising, and maintaining laboratory equipment and consumables to ensure a safe and efficient working environment.
- Supporting laboratory staff with routine testing and general laboratory tasks.
- Maintaining high standards of housekeeping within the laboratory.
- Managing stock levels of laboratory consumables and notifying senior staff when reordering is required.
- Accurately recording laboratory activities in line with company procedures.
- Assisting in the implementation and maintenance of Quality Management Systems.
- Working in accordance with ISO 17025 standards and internal laboratory procedures.

- Ensuring all work is carried out in compliance with health and safety regulations.
- Supporting continuous improvement of laboratory processes and efficiency where appropriate.

Health & Safety:

- Promoting a culture of safety awareness and adherence to safe systems of work.
- Following all laboratory health and safety protocols and reporting any risks or incidents.

Qualifications and Skills:

- Previous laboratory experience is desirable but not essential.
- Strong organisational skills and attention to detail.
- Ability to prioritise tasks and work efficiently, both independently and as part of a team.
- Good communication skills, both written and verbal.
- Basic IT proficiency, including Microsoft Office (Word, Excel).
- A proactive and flexible approach to work.

Application:

To apply for this position, please email your CV (Curriculum Vitae) to jake.robinson@adslaboratories.com. Kindly include a cover letter briefly outlining your interest in the role and any relevant experience or qualifications.

Note:

Only shortlisted candidates will be contacted for further steps in the selection process. We encourage applicants from diverse backgrounds and are committed to creating an inclusive and equal opportunity workplace.
